

EFFICIENT CASELOAD MANAGEMENT ACROSS APPS

Barbara Fernandes, Smarty Ears founder

Texas Speech-Language- Hearing Convention - 2015

bfernandes@smartyearsapps.com

About me!?

- ❖ After trying very hard to become a superhero I managed to find something even better to with my time: Develop apps that make children love going to Speech Therapy!
- ❖ Certified and Licensed Speech-Language-Pathologist
- ❖ Smarty Ears Founder & CEO - 2010 to present.
- ❖ Blogger at GeekSLP.com
- ❖ Founder of Smarty Symbols
- ❖ Developed over 60 apps for the iPad

Disclosure Statement

Relevant financial relationship(s), no relevant nonfinancial relationship(s)

I have the following relevant financial relationship(s) in the products or services described, reviewed, evaluated or compared in this presentation.

- Smarty Ears

I am the founder and owner of Smarty Ears.

I have no relevant *non-financial relationship(s)* to disclose.

- ❖ Data Tracking
- ❖ Portability
- ❖ Convenient
- ❖ Engaging
- ❖ Fun & entertaining?

**Favorite things about
Speech-Therapy apps?**

There is an app for everything!!!!

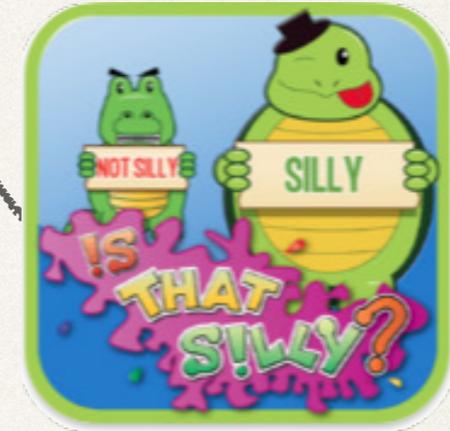

Articulation

Assessment & Screenings

Social Skills & Pragmatics

Language

Do you ever get “appwhelmed”?

What does your caseload look like?

10 kids? (“I wish”)

20 kids? (“Wishful thinking”)

30 kids? (“I think that would be plenty, but try again”)

40 kids? (“If I am lucky!”)

How many apps do you use for therapy?

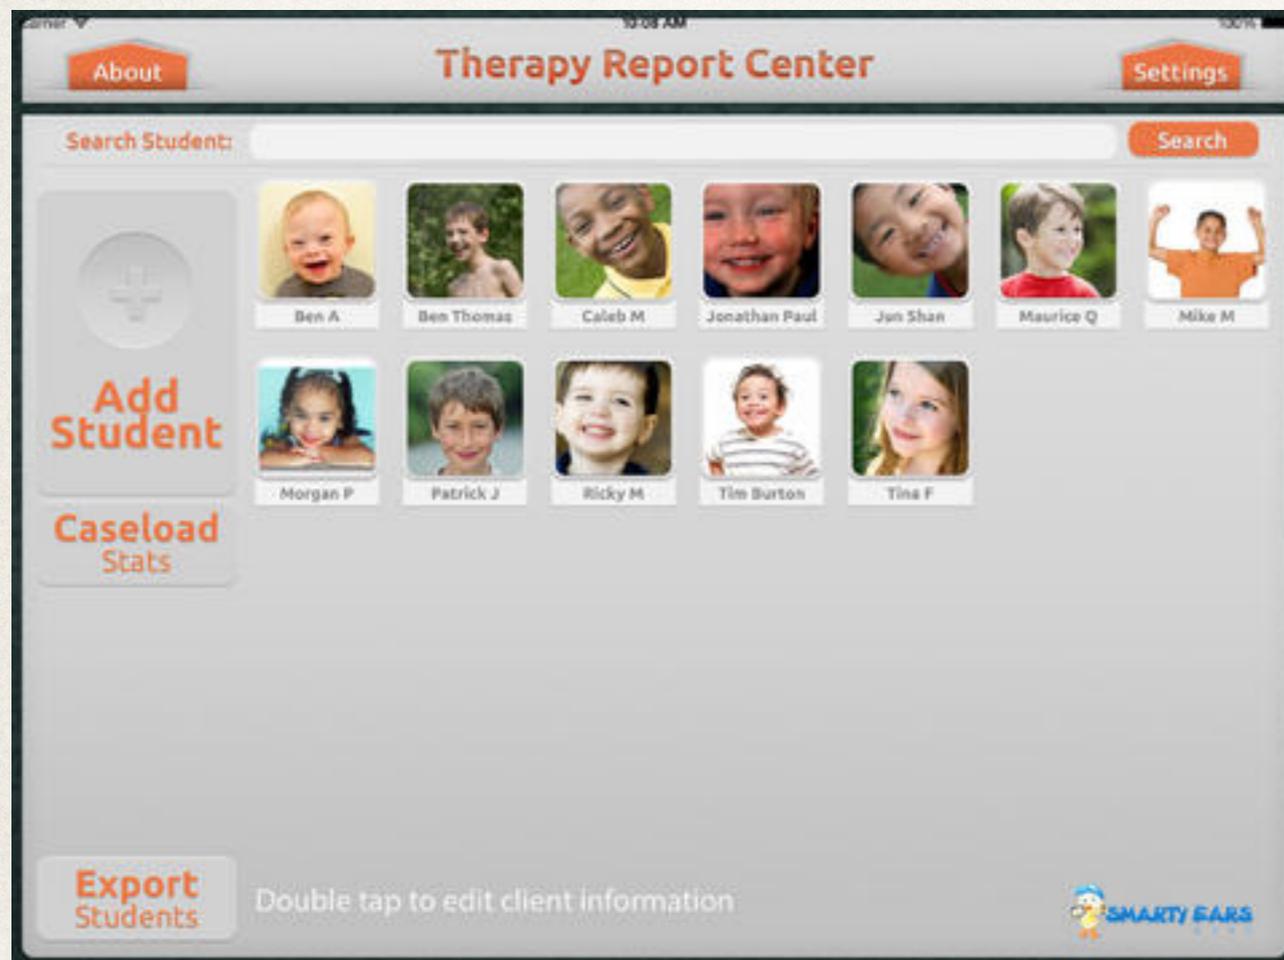

Let's play along a scenario of owning three apps, and having 30 students.

Did I create a new problem by
creating so many apps?

Problem 1:

You could spend a lot of time re-entering the same boring information on many apps.

The solution:

Therapy Report Center
App for iPad
100% FREE

Which app did I use with Paul?

oh no, wait! Let me think....

Articulate it?

hum... no, I used that one with Carrie.

Problem 2:

Progress report from apps?

When it is time to print out our progress reports from apps we have to open each one of the apps to print out reports and then combine those reports into one somewhat decent progress report.?

The solution:

The screenshot displays the 'Jeremah R's Report Center' mobile application interface. At the top, there are 'Back' and 'Share...' buttons. The main content is divided into two sections, each representing a different session.

Session 1:

- Date of session: 12/19/12
- App used: SyntaxCity
- Data from app:**
 - No. of Participants: 1
 - Duration: 5 min
 - Total No. of Foils: 2
- Results:**
 - Accuracy: 50%
- Do-Does:** Not Practiced
- Was-Were:** Not Practiced
- Is-Are:** Not Practiced
- 3rd Person Singular:** Not Practiced
- Have-Has:** Not Practiced
- Irregular Past Tense:** Not Practiced
- He-She:** 50% Accuracy
- Plurals:** Not Practiced

Session 2:

- Date of session: 1/7/13
- App used: Adjective Remix
- Data from app:**
 - Accuracy: 56%
- 1. Appearance: 34%
- 2. Colors: 50%
- 3. Feelings: Not Played
- 4. Quantity: Not Played
- 5. Shape: Not Played
- 6. Size: 100%

On the left side of the interface, there is a profile card for 'Jeremah R', a 'New Progress note' button, a 'Preview Report' button, and an 'Add Photo' button.

The Therapy Report Center combines all the data in one place.

Ms. Fernandes, what did you do for therapy on 2/14?

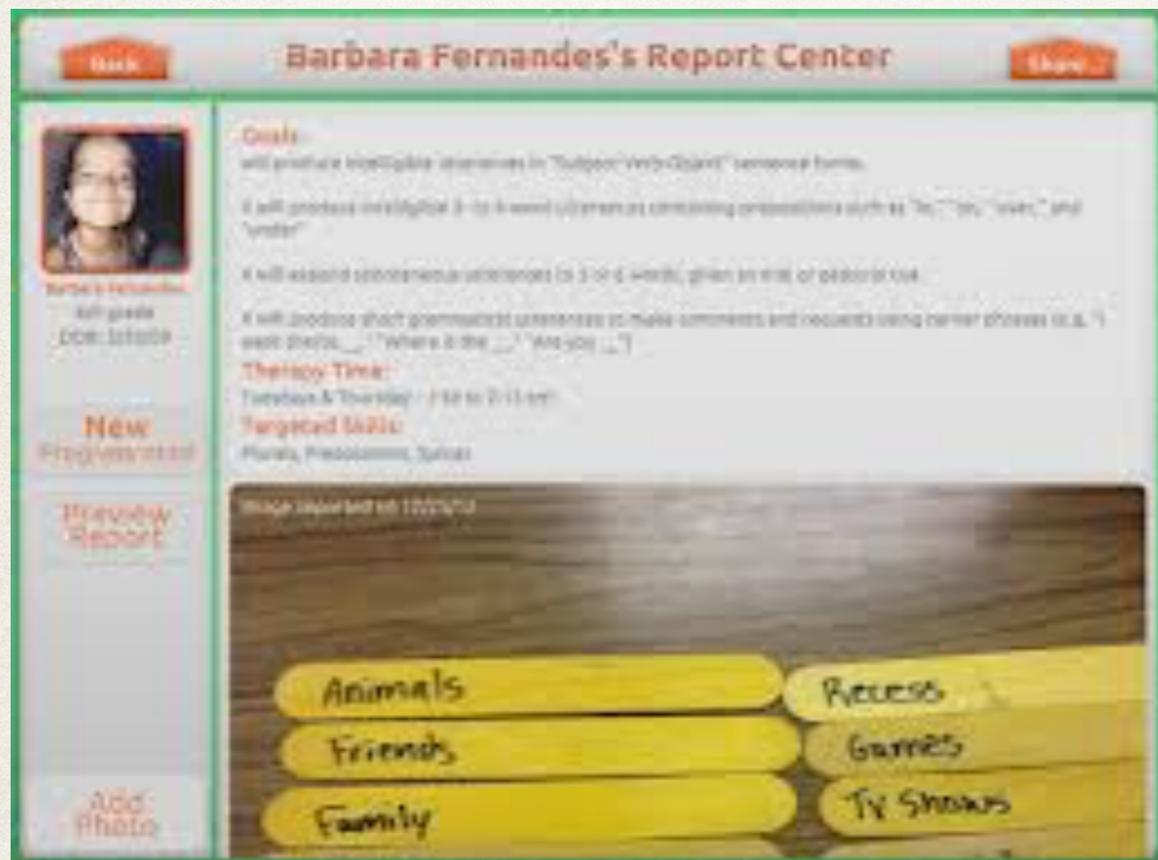

We did a craft! It was so much fun, we worked on vocabulary, following directions, and whquestions.

Do you have that paperwork?

Problem 3:

How do I show the paper based activities we used?

The solution:

Add notes and photos into the report for each student on the TRC app.

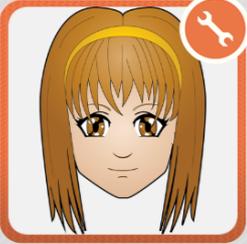

Latest updates:

A reward center allows clinicians to set goals and track progress of those goals.

Import Goals from SLP Goal Bank

Goals:

Early Intervention : will engage in joint attention activities

Early Intervention : will localize to sound

Early Intervention : will make request using vocalizations or gestures with minimal prompts

Early Intervention : will hand over a symbol to receive a desired object with hand over hand prompt.

Early Intervention : will be differentially reinforced for cooperative behaviors

Targeted Skills:
Inferencing, Reading Comprehension

 Date of session: 03/05/15
App used: Pronoun Heroes 

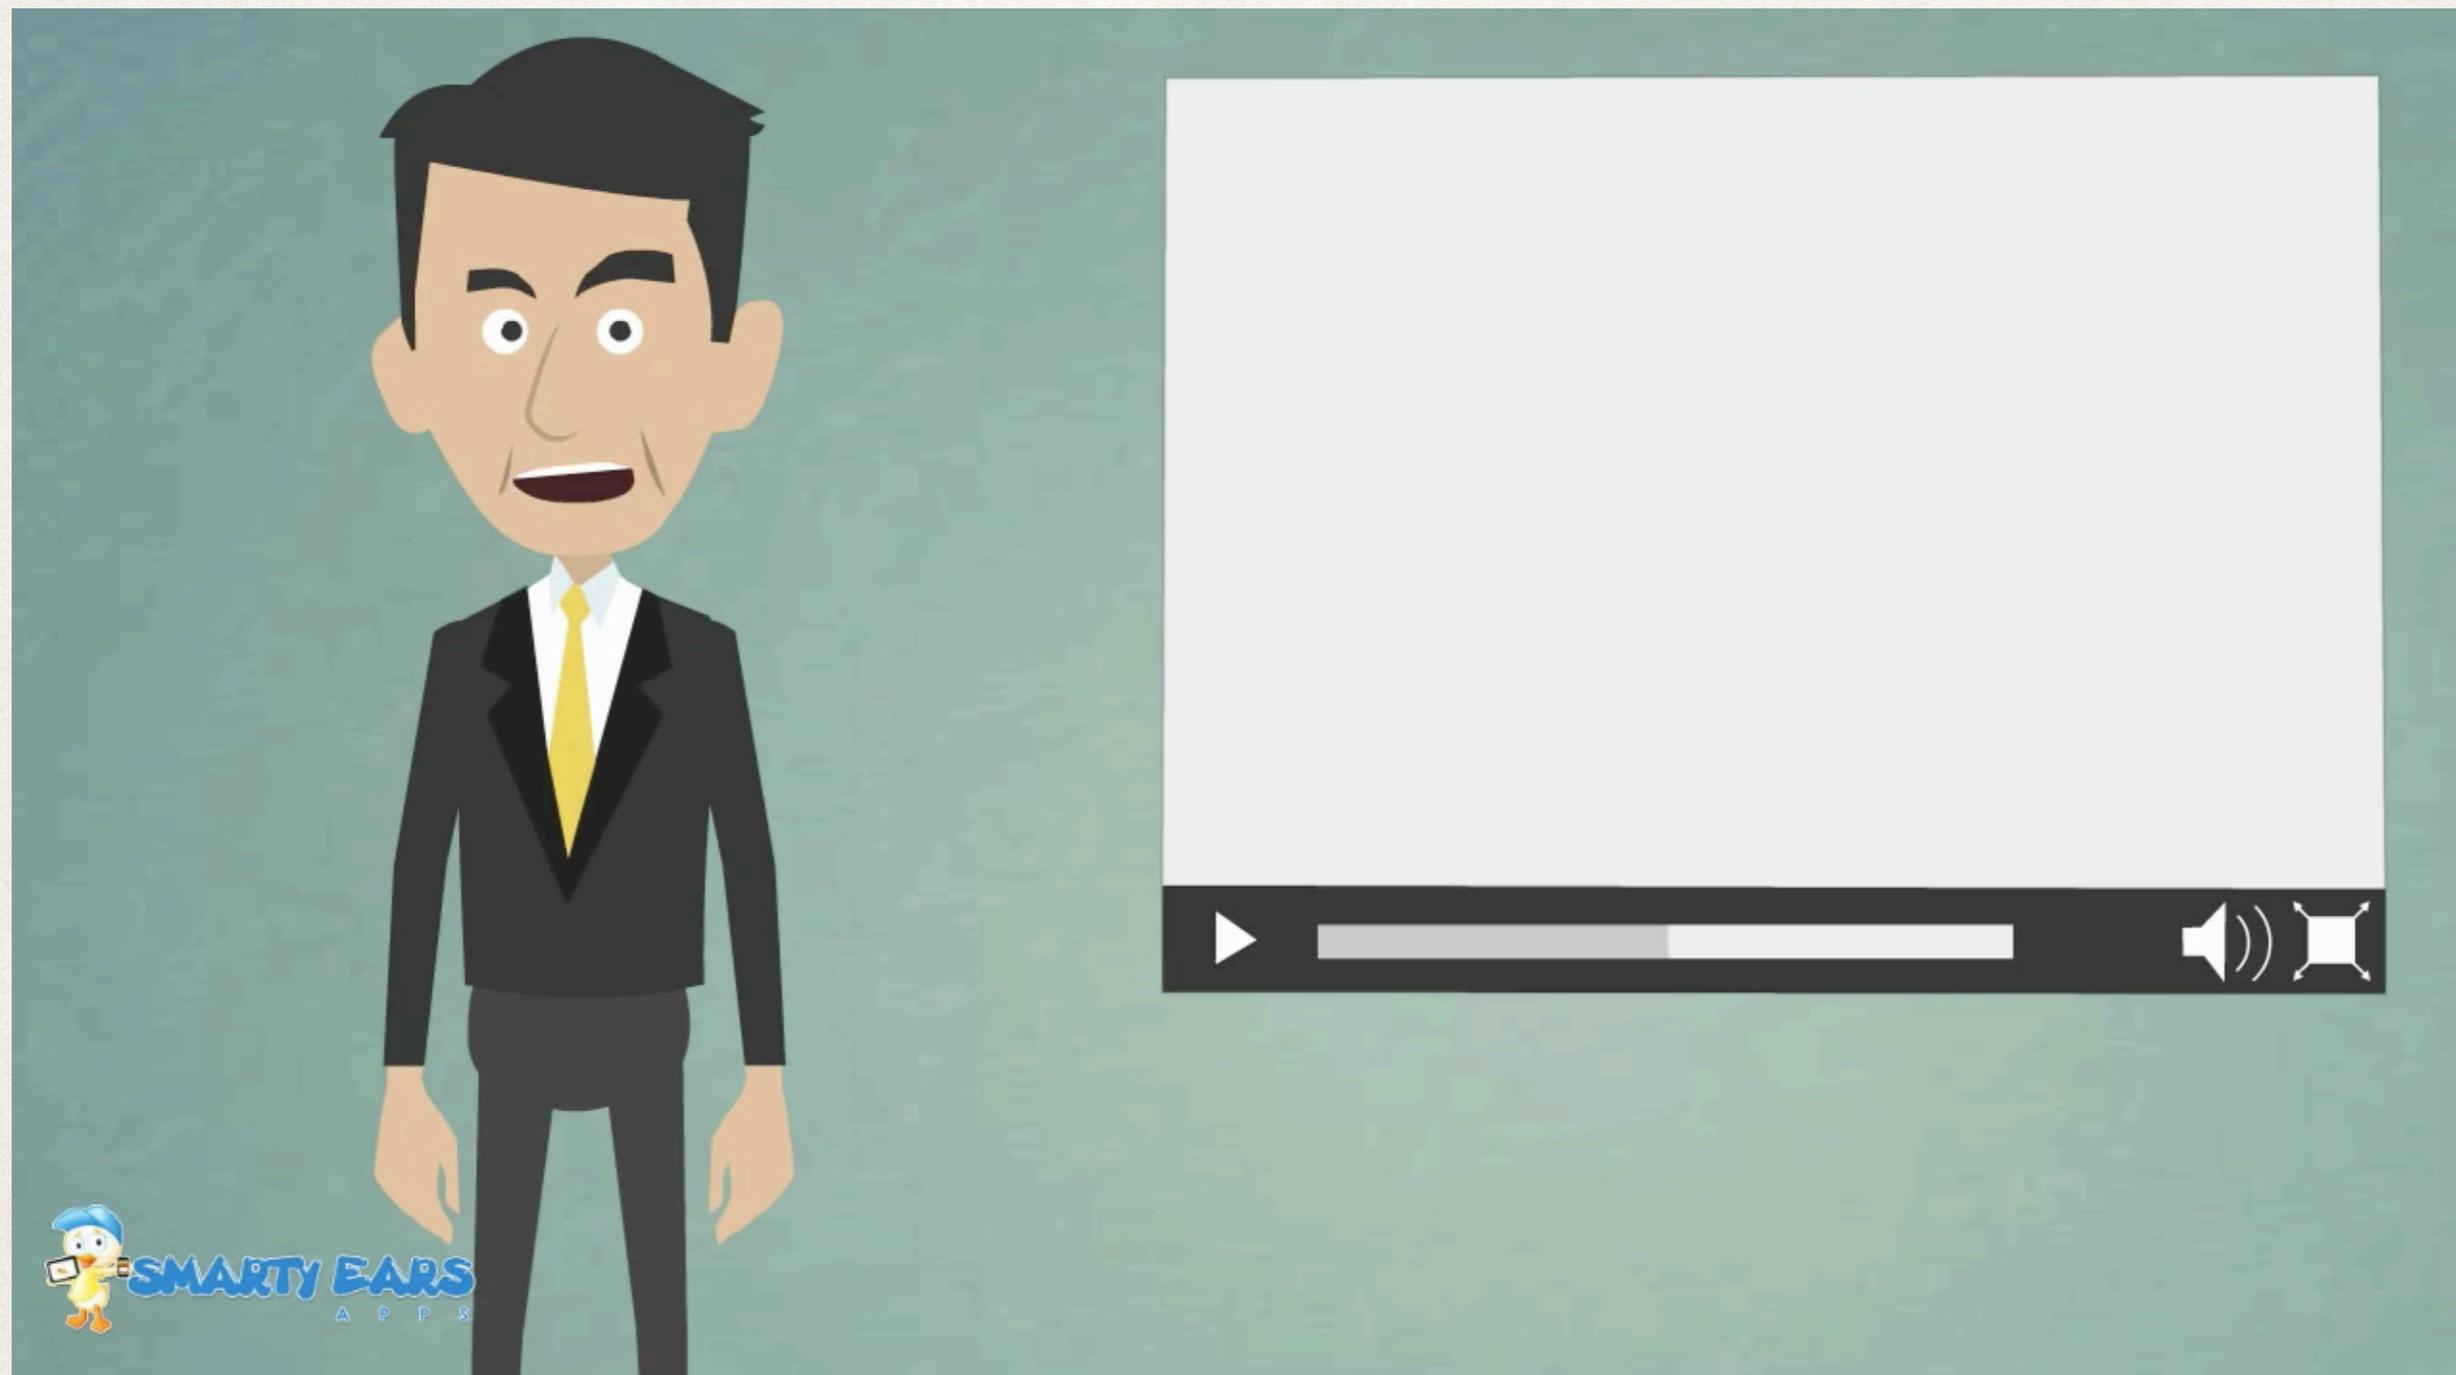

Data from app:
OVERALL ACCURACY: 100%
ACTIVITY: Find the Picture
TOTAL NUMBER OF TRIALS: 2

 Date of session: 03/05/15
App used: Pronoun Heroes 

Data from app:
OVERALL ACCURACY: 100%
ACTIVITY: Where is the Pronoun?(Words)
